Environmental Policy Statement

As a global leader in IP-based satellite communications, it is the responsibility of ST Engineering iDirect to be a good steward of our planet.

ST Engineering iDirect is committed to operate in an environmentally sustainable manner throughout the organization:

- To protect the environment, including prevention of pollution and other specific commitments related to the environmental aspects relevant to our activities, products and services;

- To minimize environmental impacts by working with all interested parties and stakeholders;

- To fulfill our compliance obligations;

- To provide products and services that are environmentally sustainable; and,

- To drive continual improvement of the Environmental Management System to enhance environmental performance.

This policy outlines the key requirements underscoring this environmental sustainability commitment and applies to all departments in all locations in which they operate.

In accordance with this policy, ST Engineering iDirect Inc. shall also:

- Operate in compliance with the letter and the spirit of all governmental regulation;

- Develop objectives and targets to drive continuous environmental sustainability improvements;

- Achieve and maintain certification under the ISO 14001 (Environmental Management Systems) standard;

- Ensure that personnel have the information and training necessary to achieve these policy requirements;

- Work with partners, customers, suppliers, members of the community and other key stakeholders to enhance our environmental sustainability programs; and,

- Report the results of our environmental sustainability initiatives.
