

## Quality Policy Statement

As a global leader in satellite communication our portfolio represents the highest standard in performance, efficiency, and reliability. It's in ST Engineering iDirect's dedication to carry this throughout all activities and processes:

- To meet the purpose and context of the organization in support of the strategic direction;
- To exceed customer specifications and expectations by involving every employee in the continuous improvement effort and effectiveness of our Quality Management System;
- To instill a culture of teamwork, respect, innovation, and integrity that is committed to satisfying our customers, our interested parties, and all applicable Quality, statutory and regulatory requirements.

ST Engineering iDirect's Executive Leadership Committee is committed to quality:

- By developing and communicating quality objectives as needed to support the implementation of this policy;
- By reviewing the performance of processes;
- By monitoring that changes do not affect the integrity of the QMS.
